

Friends and family may now schedule indoor visits with residents or outdoor visits, weather permitting. To keep everyone safe, please adhere to the following guidelines.

1. Outdoor visits may take place when temperatures are higher than 65°F but below 90°F and no rain. We will monitor residents for signs or symptoms of heat exhaustion.
2. Residents may have no more than two guests per visit.
3. All visitors must be over age 2. Visitors under age 18 must be accompanied by a responsible adult.
4. Visitors, residents and staff must wear masks during all visits. The community will provide a surgical mask for all visitors and residents.
5. We highly discourage eating during a visit due to this would involve the removal of masks. Masks must be worn during the visit per federal and state requirements.
6. Hand sanitizer, supplied by the community, must be used by residents, staff and visitors prior to, and after, each visit.
7. Guests and residents are recommended to maintain a safe physical distance of at least 6 feet throughout the visit and are encouraged to refrain from physical contact (hugging, kissing or touching) for everyone's safety. If contact occurs, hand hygiene should be performed at the conclusion of the visit.
8. Visitors must refrain from using resident room restrooms. Visitors must use the community designated restroom for visitors.
9. Please call at least 24 hours in advance of your preferred visiting day. Visits will be scheduled in 30-minute time slots to accommodate as many families as possible.
10. Guests will be screened for COVID-19 symptoms (dry cough, shortness of breath, etc.) and fever (99.6°F if age 65+ | 100.4°F if under age 65). We reserve the right to test visitors for COVID-19 at the sole discretion of the community.
11. If you develop a fever or symptoms of COVID-19 within 14 days of a resident visit, please contact the community immediately.

**If you choose not to follow these guidelines, we may restrict your visitation privileges.*
